**International Law and the Use of Force**

Thus, dealing with the use of force in international law relates only to a very specific sector of perils to human life. In the twentieth century, war became a threat not only

to combatants but also to humankind as a whole. Technological development has led to nuclear, biological, and chemical weapons with potentially devastating effects, thus not only erasing the line drawn by international law but also blurring the line between war and peace. **International Law and The Use of Force by Christine Gray ...**
