Language in Cognition - Pieter A. M. Seuren - Oxford ...

Language in Cognition argues that language is based on
the human construal of reality. Humans refer to and
quantify over virtual entities with the same ease as they do
over actual entities: the natural ontology of language, the
author argues, must therefore comprise both actual and
virtual entities and situations.

The Logic of Language - Pieter A. M. Seuren - Oxford ...

Pieter Seuren argues that the logic of language derives
from the lexical meanings of the logical operators. These
meanings, however, prove not to be consistent. Seuren
solves this problem through an indepth analysis of the
functional adequacy of natural predicate logic and standard
modern logic for natural linguistic interaction.
