[Lise Meitner: A Life in Physics: Ruth Lewin Sime ...](#)
The author Ruth Sime paints a personal and a compassionate portrait of Lise Meitner, her life and her times; and she vividly brings to life the tragic events in our modern history which shaped Lise Meitner's turbulent career. A central theme in the book is the physics community's reaction to the first use by the USA of a fission bomb over Japan in 1945. (In fact it was two nuclear bombs, one

When sixty-year-old Lise Meitner fled Nazi Germany in 1938, she carried with her nothing but a small valise and a deep, abiding passion for physics. Eight years later Meitner, co-discoverer with Otto Hahn and Fritz Strassmann of nuclear fission, watched as Hahn alone received the Nobel Prize for their joint research.

[Lise Meitner: A Life in Physics by Ruth Lewin Sime](#)
Lise Meitner (1878–1968) was a pioneer of nuclear physics and co-discoverer, with Otto Hahn and Fritz Strassmann, of nuclear fission. Braving the sexism of the scientific world, she joined the prestigious Kaiser Wilhelm Institute for Chemistry and became a prominent member of the international physics community.
